

IT-ALLROUNDER CONCRETE LOGISTICS (m/f/d)

For more than 40 years, DSA has been a leader in the development of innovative and customised communication solutions for vehicle electronics. With more than 850 employees, as an international company we are represented with our subsidiaries in eight countries. As a skilled IT-allrounder in the concrete industry, you will use your business skills to expand our customer base and support our colleagues in the deployment and training of our software. In this way, you will make a significant contribution to the further development of our telematics division.

Your Tasks

Project acquisition and project management: You actively contact new and existing customers and take responsibility for the acquisition and management of projects.

Support with deployment and training: You support your colleagues in implementing our software and train our customers in how to use it.

Further development of industrial logistics: You will continuously develop the area of industrial logistics concrete and thus make a significant contribution to innovation and increasing efficiency.

Your Profile

You have a degree in business informatics, computer science or a comparable qualification.

You enjoy interdisciplinary activities and have the necessary ambition to familiarize yourself with the concrete industry.

You have basic knowledge of software development, ideally in Python, Java.

You are enthusiastic about working with databases such as Microsoft SQL Server or SQLBase.

You have good time management skills and work independently and goal-oriented.

You appreciate working in an agile team and take responsibility for your work results.

You communicate fluently in written and spoken German and English.

Our Offer

We offer flexible working hours and the opportunity of working remotely.

We organize regular employee events and we offer a job bike for your mobility.

In our growing, globally positioned company, you will find creative freedom in an inspiring environment.

We have a modern working culture with a flat hierarchy, short communication channels and individual development opportunities.

We also offer free coffee and an incredible view of the Eifel.
