

# STUDENT ASSISTANT SOFTWARE TESTS (m/f/d)

You would like to gain first practical experience in addition to your technical studies? You are interested in the topic of quality management of innovative software solutions? You will support our experienced software testers in the design and implementation of tests for our software solutions for the latest vehicle technologies.

## Your Tasks

You support our interdisciplinary team in testing our sophisticated software solutions.

You will be involved in the quality assurance of our innovative products that put vehicles and components to the acid test during and after production and ensure quality and reliability.

## Your Profile

You are studying electrical engineering, computer science or a comparable degree program (B.Sc./M.Sc.).

You have basic knowledge of a higher programming language.

You are eager to expand and deepen your knowledge of software testing.

## We Offer You

An attractive working environment in a highly motivated, creative team.

State-of-the-art topics and tasks in the field of the automotive future.

An attractive customer environment from the international automotive industry.

Exciting and varied activities as well as the opportunity for a Bachelor / Master thesis.

The possibility to freely organize your working days according to university times.
